

HAZARDOUS MATERIALS MODELING & INFORMATION SHARING TOOLS (HAZMIST)

AVAILABLE AS AN 8 OR 16
HOUR TRAINING COURSE

DAY 1 COURSE TOPICS:

- » Mapping & Personnel Tracking
- » Quick Response Models
- » Collaboration/Information Sharing
- » Emergency Response Apps
- » CERES/ALOHA Plume Models
- » Explosion & BLEVE Models
- » Public Protective Actions
- » Receptors & Population Impact
- » Real-Time Weather & Forecast

COURSE DESCRIPTION:

Hazmist Day 1: This interactive 8-hour module will prepare hazardous materials technicians and specialists to employ and integrate multiple HazMat/CBRN software applications and wireless tools, including the Chemical Emergency Response E-Service (CERES), to plot recommended emergency response distances on an incident map, share hazard information, and assist in making risk-based response decisions.

Host agencies will receive an annual HazMat team access for the Chemical Emergency Response E-Service (CERES), local mapping/GIS data set-up at no charge. Limit: 15 students. Each student is provided with a Hazard3 laptop for use in class. Host agency must provide wifi-internet access.

DAY 2 COURSE TOPICS:

- » Sensor-Driven Plume Models
- » Wireless Air Monitoring
- » Integrating Tier II Data
- » Wide-Area Monitoring Techniques
- » Pre-Defined Models for Target Hazards
- » Source Area Location
- » Odor Complaints
- » Building Infiltration

COURSE DESCRIPTION:

Hazmist Day 2: This 8-hour training module will build on the knowledge and skills included in the HAZMIST day 1 course to prepare hazardous materials technicians to utilize wireless technology including the Chemical Emergency Response E-Service (CERES) to perform wireless air monitoring, sensor driven plume models, Tier II hazardous chemical inventory integration, integrate on-site wireless weather stations, and preparing for local HazMat target hazards.

Host agencies will receive a CERES air monitoring integration upgraded access for up to 10 existing Rae/Honeywell or Blackline detectors and Tier II database import into CERES at no charge.
