

HAZARDOUS MATERIALS

TACTICS, TECHNIQUES, AND PROCEDURES COURSE

Includes the ER Playbook App

18-HOURS OF HAZMAT TECHNICIAN/ SPECIALIST LEVEL TACTICS TRAINING

- » Delivered as Twelve (12) Virtual Instructor Led Training (VILT) Webinars
- » One 90-min Webinar Each Month with Multiple Tactics Covered

COURSE DESCRIPTION:

The Hazardous Materials Tactics, Techniques, and Procedures (HazMat TTP) course will provide hazardous materials responders with updated response guidance and tactical considerations for a wide range of HazMat emergencies, including transportation incidents.

Each HazMat tactics webinar will be recorded, and participating agencies will receive a playback link for personnel that could not attend the live session. The training content exceeds OSHA 1910.120(q), aligns with NFPA 470, and covers emerging hazards and updated response options.

ER PLAYBOOK APP®

The ER Playbook® App will serve as the digital course hand-outs and job-aids for each HazMat TTP webinar. Participating agencies receive access to the ER Playbook® App for their participating members for 1-year for free.
